Mr. Mell Smigielski, Village Administrator  
Spring Green Municipal Water Utility  
112 West Monroe Street  
Spring Green, WI 53588-8019

1999 Analytical Review DWCCA-5640-PJL

Dear Mr. Smigielski:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1999 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. The analytical review letter for the 1997 annual report included a recommendation that the utility use a revised composite depreciation rate of 2.09 percent, which is calculated based upon benchmark depreciation rates ranges which were adopted by the Commission in 1996. It is noted on page F-7 that the utility used the old composite depreciation rate of 1.92 percent during 1999. If your utility does not adopt the authorized composite depreciation rate of 2.09 percent, the utility's file at the PSC will be updated to indicate this fact, and this would be a consideration in future rate cases if amortization of retirement losses was requested by your utility. If you have any questions with regard to depreciation rates, please contact James Luckow of our staff at (608) 266-1282.
2. Wisconsin Administrative Code § PSC 185.76 requires periodic testing of customer meters to ensure their accuracy. Meters 1 inch or smaller shall be tested at least every 10 years, meters 1½ to 2 inches every 4 years, meters 3-4 inches every 2 years and meters over 4 inches every year. Your 3 and 4 inch water meters have not been tested at the appropriate frequency for several years. If these meters are inaccurate, considerable revenue is lost. During 2000 we advise your utility to test its meters in compliance with § PSC 185.76. If you have questions in regard to this matter, please contact Bruce Schmidt of our staff at (608) 266-5726.
3. In our letter of July 22, 1999, regarding our review of the utility's 1998 report, we wrote in item number 1 that we noted amounts reported in Account 311, Structures and Improvements, pages W-8 and W-9 and that this amount is more appropriately reported in Account 310, Land and Land Rights. In the 1999 report the \$4,194 is still reported in Account 311. Please explain.
4. Please explain the purpose of the offsetting balances of \$461,280 in Accounts 123 and 253 in the Balance Sheet End-of-Year Account Balances schedule on page F-18.

---

### Water Operating Revenues & Expenses (Page W-01)

See Accountant's Compilation Report

---

### Water Operation & Maintenance Expenses (Page W-05)

Salaries and wages (600) increased \$4,670 or 36% from 1998 to 1999. In 1998 village employees spent more time on general village projects.

Outside Services Employed (682) increased \$20,381 or 289% from 1998 to 1999. Increase is due to increased Well #2 MTBE monitoring services.

---

### Water Services (Page W-16)

In 1999 there were 8 services that were replaced. The water utility financed these replacements.

---

### Meters (Page W-17)

Adjustments were made to adjust previously reported meter counts to actual.
